About company

Company

Klink Finance Limited (Company number 14228138) is a London-based startup, operating at the intersection of finance- and blockchain technology. Klink implements methods of gamification that enable better and recurring financial habits of its users.

Product

Klink is a stablecoin deposit account where users hold funds and earn yield in the form of prizes. Users get a weekly recurring ticket for every $25 held in USDC. Each of these tickets gives a chance to win prizes ranging from 10 cents up to $1 million every week through a prize draw held daily and finalized on Saturday evenings.

Klink offers a deposit product with a “prize-linked savings”-mechanism as starting go-2-market product, that rewards users for holding funds in their account with weekly interest payments in different amounts based on chance.
