About company

Brytlyt Ltd is a British company that specializes in high-performance data processing and analytics solutions. The company was founded in 2013 and is headquartered in London, UK. Our technology Team is based in Poland (Warsaw and remote) while commercial and operations management is based in the UK.

Brytlyt Ltd has a strong track record of innovation and has been recognized with several awards, including the TIBCO Independent Software Vendor of the year 2022.

Brytlyt’s flagship product, BrytlytDB, is a GPU-accelerated database that enables faster data processing and analysis than traditional CPU-based solutions, in fact Brytlyt is the world's fastest analytics database.

“Brytlyt are passionate about creating market-leading technology that solves tomorrow’s problems as well as today’s. We go beyond what’s already been done to innovate next-generation data solutions.“

About company

Brytlyt Ltd is the best all in one AI deep learning and data visualisation platform, helping you understand and utilise your data faster and more efficiently.
