About company

Infosys BPM is a global leader in next-generation digital services and consulting. We are present in four major Polish cities: Lodz, Wroclaw and Cracow.
The respective centers are supported by qualified professionals, providing BPM, HRO and ITO services for some of the largest clients in the world in 28 languages. We employ more than 2500 specialists, which makes us one of the most important players in the service sector in Poland.
Our Infosys BPM Poland key business process outsourcing service areas are tax management, master data management, finance and accounting, sourcing and procurement, business transformation projects, and auditing.
With the implementation of Lean Methodology across the industry, we have focused on improving the business processes. The transformation of the Business Process Management (BPM) industry reflects the fact that the nature of work in the enterprise has moved beyond just processing transactions to management of a client’s end-to-end business process as a partner.
